

## ZUMINOL SOLUTION

### 0W-20 FULLY SYNTHETIC MOTOR OIL

ZUMINOL SOLUTION 0W-20 is a modern synthetic fuel economy motor oil crafted from specially selected base oils with a high viscosity index and advanced additives. It provides several key benefits, including reduced fuel consumption, a high and stable viscosity index, and excellent resistance to shearing and oxidation. The oil ensures a fast cold start, maintains a protective lubrication film at high temperatures, and offers exceptional detergency and dispersion. It also provides strong protection against wear, corrosion, and foaming.

Recommended for petrol engines in passenger cars that require GM dexos1 specification oil, this fuel-efficient synthetic motor oil is also suitable for hybrid vehicles, provided the OEM specifications are met.
